

Eyes In The Sky

Nothing compares to the way I see...

1.
*Wanna notch one up, get the upper hand
Taming the winds all across the land,
Tearing up the roads, each one-of-a-kind,
Gettin' high as a kite, leave it all behind?*

2.
**No distress, no tangled mess,
I steal away to keep it off my chest.
Highways, byways releasing the heat
Rest a thousand miles down beneath my feet.**

3.
**Taking to flight with no indignation,
Thoughts or worries of abomination.
No punks, no chumps getting' in my way,
It's gonna be one blessed day!**

**REFRAIN:
Living life high, I clearly see
All things just as I want 'em to be.
I rock-n-roll 'cross the invisible ocean.
Piercing right through with my loco motion.**

**Gettin' up, goin' down; the jolts of explosions,
Send me out of control with all the implosions.
Taking the ride for all the right reasons.
Doin' right by the maiden is totally pleasin'.**

**A poison, drug, a sinful disease,
Habitual addiction... It sets me free!
Don't wander by if you don't love to fly
In the world I see with eyes in the sky.**

4.
**Climbing high in the sky, clawing and scratching
For each and every foot, so what's the attraction?
Shootin' it up for sights unseen,
Keeps the ride alive through the end of the scream.**

5.
On a wave of wind, I'm taken to flight,
Fly it hard all day... Live it up all night!
No need to worry 'bout winning the fight,
I can only falter holding on too tight.

6.
'Less you're with me, you just can't see
The chemical need and dependency.
Vertigo's rushing straight through my brain,
Those who don't know me think I'm insane.

7.
When I need more speed just to keep the emotion,
Step me up to the bar, to the magical potion.
Just one more hit, that's all you've got?
Come on, load me up, give me another shot!

8.
Doin' it all to get some X-ti C
By the end of the day, who knows where I'll be?
So bring 'em on, make 'em strong, try to evade me,
Riding high and hard, they ain't gonna phase me.

9.
Lighting me up with their radical commotion,
Trying one more time with mystical devotion.
'Cause I miss the chills all over my skin,
Come on! Bump me up, I want 'em back again.

[REFRAIN]

10.
Living high as a kite, there's no place to hide,
So let it all hang out for an awesome ride,
Tossing and turning and pulling and rolling,
Fightin' nature's hand, she keeps it all going.

11.
Don't waste your time coming looking for me,
Unless you wanna dance in the endless sea
Of a world to take you through infernal abstraction
Of a twilight zone, filled completely with action.

12.
In my mind, my brain, my secret places
With all my friends in freaked-out spaces.
The rush, euphoria, we live each day,

Come take a trip with us on that deranged highway.

[REFRAIN]

**13.
It all comes down to reality,
Seem to wonder where we want to be.
You know, it's my life, my destiny,
It's my choice, I'll do as I please!**

[REFRAIN]

**Don't wander by if you don't love to fly
In the world I see with eyes in the sky.
I'm looking at the world through my eyes in the sky!**
